Smoke effects	2 - 5	2 - 5

Description of F/X Scene: We will use haze in production. In the warehouse, which is the street scene, we will make a long PVC pipe with many holes on it. And put the fog machine point into the pipe to make the effect that looks like there%u2019s some steam from underground. And we will put some light on the ground and keep dimming up and down to make it looks like a fire. Then we will use vinyl tubing connect to the fog machine to have some fog for these lights. To make it looks like a real fire. There is no smoke detector in the warehouse, and the warehouse has a good ventilation system.

NOTICE OF STUDENT FILMING

We, the student filmmakers named below on this form, are planning to film a student production in your neighborhood. We are applying for all necessary permits and agree to maintain all legally-required liability insurance. Additionally, all personnel required to ensure public safety will be on location. We will abide by all County or City filming rules and any specific guidelines applicable to your neighborhood.

We will make every effort not to disturb you and will treat your neighborhood with the respect it deserves. Thank you in advance for your hospitality and cooperation while we are filming on your street.

When filming on-location in the County or City of Los Angeles, advance notice must be provided to all residents, merchants and/or businesses within a 500 foot radius of the filming location. Exceptional filming activities, such as simulated gunfire, may require us to notify a wider area.

We will be filming scenes for the following production/project.
